

The Ins and Outs of It.

If you get best wear out of a coat, best work must have gone into it. You can't get good bread out of poor flour.

Mean! You can't get the best out of anything, unless the best is in it; and the best has to be put in before it can be taken out. Now, we have a rule to test those sarsaparillas with a big "best" on the bottle. "Tell us what's put in you and we'll decide for ourselves about the best." That's fair. But these modest sarsaparillas say: "Oh! we can't tell. It's a secret. Have faith in the label." Stop! There's one exception; one sarsaparilla that has no secret to hide. It's Ayer's. If you want to know what goes into Ayer's Sarsaparilla, ask your dealer to write for the formula. Then you can easily yourself that you get the best of the sarsaparilla argument when you get Ayer's.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G. & L. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler. \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

E. O. Hall & Son

DAINTY LACE WORK.

SUITED FOR FEMINE FINGERS DURING HOT DAYS.

The Favorite Variety—Different Braids and How to Use Them—Where Braids Come In—Design For Edging Collar and Cuff Set.

With the advent of summer comes an increased demand for laces of all kinds, but the favorite variety this season is applique. It is used on bonnets, capes, dresses—everywhere except on undergarments. It is costly in price, but very easy to make. The name applique, meaning applied, has been given to the dainty fabric because it consists of various patterns made with lace braid sewed upon thin substances, such as batiste, silk, muslin, chiffon or net.

Different kinds of lace braid are employed in this fascinating work. These can be obtained in black, white and butter colors.

The centers of flowers are formed of brass rings of various sizes, buttonholed over with flax thread. Two rings are used for each center. These are held firmly together between the first finger and thumb of the left hand, one ring being placed on top of the other, and the thread, while working, is drawn away from the worker, not toward her. The loops should be drawn close together and firmly and the ridge at the bottom formed by the buttonhole stitches should stand out plainly, as it is

through these that the ring is sewed to the lace. After working the rings the thread can be fastened by running the needle backward through the stitches for a little way, and the loose ends clipped off.

The darned center is so simple that any one who can darn stockings will do it without direction. The larger rings can be crocheted over with the flax thread by using a fine steel hook.

The pattern for working should be drawn on stiff brown paper or architect's linen. The chiffon or net is basted firmly to this. In sewing the needle is slipped between the paper and the material, not carried through. One hundred cotton is used for sewing down the braid, and the worker must dip the spool in coffee to obtain a tint for the better colored braid, and in ink for working on black.

The first lace shown is very simple, and can be worked in the hand without a traced pattern. Braids Nos. 4 and 5 are used. No. 5 is cut into sections of two. Three of these sections make a flower, and are sewed on the flat braid (No. 4) at intervals of about half an inch. The sections cross in the middle and a plain buttonholed ring forms the center. This design, as well as others here described, appeared originally in The Standard Designer along with accompanying information.

The collar and cuff set is exceedingly pretty. It can be made on black or white chiffon, or silk muslin. The pattern for working is shown below.

SIMPLE EDGE COLLAR AND CUFF SET.
Pattern for the triangular pieces is first traced on linen and the chiffon basted over it. The double border of No. 3 braid is sewed on with a running stitch which catches first one side and then the other. Then the linen cord which forms the stems is buttonholed down with long stitches. The flower petals and leaves are made of sections of No. 5 braid.

A Panic Prevented.

What the consequences might have been if the Palama Grocery had not received another large invoice of the justly celebrated Salvation Army Tea, is something awful to contemplate. When we first advertised it, we expected quite a run on it, but the demand lately has far exceeded our expectations. However, in time to prevent a panic we are in receipt of another large invoice. H. Cannon, sole agent for the Islands, Palama Grocery, Tel. 755.
